Introduction

By applying creativity to the tasks and challenges you face in your work, you will begin to experience breakthroughs you never thought possible. You will feel sure you really are on the creative edge and be able to consider different sides of an issue while anticipating a broader range of possibilities. In this seminar you will discover how to build and expand your creative abilities.

Participants will develop the following competencies:

- Use effective communication to motivate creativity in your team
- Help your team find creative solutions to workplace challenges
- Come to better conclusions and decisions more often
- Recognise and encourage creative people
- Learn how to challenge assumptions and expand perceptions about situations

Objectives

This seminar aims to enable participants to achieve the following objectives:

- Build a culture that promotes innovation & creativity
- Become familiar with different styles of thinking and identify your personal preferences
- Develop creativity for transformational leadership
- Learn how to find out what you don't know—and solve the real problem
- Challenge existing approaches to workplace issues
- Develop flexible creative and well motivated teams

Training Methodology

This seminar uses self-assessment questionnaires, models, practical exercises, case studies, presentations and group discussion to develop creative thinking and innovative decision making skills. The use of participants' own real work situations adds reality and enhances transference of learning. This is a non-threatening environment which will allow participants to practice safely techniques they will then transfer to the workplace.

Organisational Impact

What does the organisation gain by sending their employees on this course? Attending this seminar will enable participants to use simple but highly-effective creative problem-solving and decision-making tools to better:

- Align their efforts to achieve organizational goals and objectives
- Build and develop their team's working style and processes
- Enhance their team's commitment and achievement
- Transfer the classroom learning directly to the workplace with immediate impact
- Create a climate of innovation amongst their teams
- Create ownership of complex problems and empower solutions

Personal Impact

As a participant, you will learn to:

- Consolidate the tools and techniques for thinking creatively
- Make better decisions for solving problems innovatively and successfully
- Learn a process for ensuring that your team contribute effectively
- Enhance creative thinking in the workplace
