Program Overview:

Business professionals are frequently required to prepare management reports, scorecards, and dashboards. Attending this course will help you reach advanced Excel levels allowing you to produce such important reports. The course starts with pivot tables, the most important tool ever created to perform data reporting, analysis and reconciliation. It then continues with high level modeling techniques, integration and report visualization, and it ends with automation. Your take-away is guaranteed to add value to your daily and periodic tasks. This course is a must for every intermediate-level Excel user.

For Whom:

Business professionals, accountants, finance analysts, senior and junior accountants, business analysts, accounting and finance professionals, research professionals, marketing and sales, administrative staff, supervisors, general staff from any function who need to learn and apply state-of-the-art techniques to their daily business reporting, reconciliations, and analysis. Pre-requisite: Intermediate-level Excel knowledge.

Learning Objectives:

At the end of the program, participants will be able to:

- use their Excel expertise in data slicing and dicing, data massaging, data aggregation, data integration with Access, web, text, SQL, and other databases using pivot tables;
- perform advanced and dynamic data validations;
