Program overview:

The Procurement, Monitoring, and Evaluation course is designed to provide professionals with comprehensive knowledge and skills in the areas of procurement management, project monitoring, and evaluation. This course covers essential concepts, methodologies, and best practices to ensure effective procurement processes, continuous monitoring, and thorough evaluation of projects.

It provides a comprehensive overview and practical insights into the processes of procurement, monitoring, and evaluation within organizational contexts. Participants will gain a deep understanding of the key principles, methods, and best practices essential for effective procurement management, rigorous monitoring, and impactful evaluation of projects and programs.

For whom:

This course is designed for professionals and practitioners involved in project management, development cooperation, public administration, and non-governmental organizations (NGOs). It is particularly beneficial for procurement officers, project managers, monitoring and evaluation specialists, and anyone responsible for overseeing or implementing projects and programs.

Learning Objectives:

At the end of the program, participants will be able to:

- Gain insights into the principles, processes, and strategies of effective procurement management.
- Learn how to design and implement monitoring frameworks to track project progress and performance.
- Acquire skills in conducting project evaluations to assess outcomes, impact, and overall effectiveness.
- Understand how to optimize procurement activities, ensure compliance, and maintain transparency and accountability.
- Explore various tools and techniques for procurement, monitoring, and evaluation to improve project management practices.
