

Workshop on Advanced Financial Management in Public Sector

February 9 – 13, 2026

Venue: The Palace Pyramids Hotel

Farouk Ahmed Khattab, Giza, 12557 Cairo, Egypt

Course Fee: \$4,500 per Participant

Program overview:

The Advanced Financial Management in the Public Sector training is meticulously designed for finance professionals and public sector administrators who aim to enhance their expertise in managing public finances effectively. This comprehensive course covers advanced techniques and strategies specific to the public sector, focusing on financial planning, budgeting, control, and accountability. Participants will gain the skills necessary to ensure efficient use of public funds, achieve financial sustainability, and comply with regulatory requirements.

This course will empower public sector finance professionals with the advanced knowledge and skills needed to manage public funds effectively, ensure financial sustainability, and promote transparency and accountability in financial operations.

For whom:

This course is designed for Public Sector Financial Managers, Budget Officers, Accountants and Auditors in the Public Sector, Public Administrators, Policy Makers, Finance Directors in Government Agencies, and other professionals involved in public financial management will benefit from this course.

Learning objectives:

At the end of the course, participants will be able to:

- comprehend the principles and practices unique to public sector finance, including the regulatory and ethical frameworks.
- implement sophisticated budgeting methodologies tailored for the public sector, such as performance-based budgeting and participatory budgeting.
- enhance FP&A skills to support strategic decision-making in public entities, including cost-benefit analysis and financial modeling.
- apply international public sector accounting standards (IPSAS) and other relevant accounting frameworks.
- identify and manage financial risks within the public sector through advanced risk assessment and mitigation strategies.
- optimize revenue generation and management, including tax policy and non-tax revenue strategies.
- implement effective expenditure control mechanisms to ensure fiscal discipline and efficient resource allocation.
- ensure accurate and transparent financial reporting to foster accountability and public trust.
- leverage technology to enhance financial management processes, including e-governance and financial information systems.
- ensure adherence to public finance regulations and governance standards, promoting ethical financial practices.

Course Outline:

Day 1: Module 1: Fundamentals of Public Sector Financial Management

- Overview of public sector financial principles
- Regulatory and ethical frameworks
- Differences between public and private sector finance
