**Available for In-plant Training**

**700 U\$D for foreign  
Participants**

### **Program overview:**

Safety is of utmost importance in any industry in spite of our best efforts, accidents and incidents occasionally occur. These unplanned or undesired events can adversely affect a company's work operations and may include work-related injuries, occupational illnesses, property damage, spills and fires. Critically all incidents should therefore be thoroughly investigated demonstrating a proven company-wide process of efficiency and effectiveness linked to the Safety Management System (SMS). However, even a minor incident or near-miss incident also requires a thorough investigation as this may reveal significant potential for a serious future incident should the conditions be left uncorrected. This training program is designed to provide participants with confidence and necessary professionalism to enable a thorough Accident Investigation as soon as practicable after the event.

### **For whom:**

This program is designed for those officers who may become involved in these investigation as well as Managers wishing to have a deeper knowledge of this process and crucially how it affects the interpretation of the law, regulations and company procedures. This course is suitable to a wide range of professionals but will greatly benefit: HSE Officers, Supervisors, Inspectors, Advisors, Auditors, and Team Leaders/Managers.

### **Learning objectives:**

At the end of the course, participants will be able to:

- \* acquire the knowledge and skills required to investigate all adverse events;
- \* know and explain the causes of accidents and ill-health;
- \* discuss the elements that combine to form an accident;
- \* develop confidence & professionalism in investigating, interviewing & reporting;
- \* ensure all employees & contractors are aware of the SMS and 'Safety Culture'; and
- \* apply the legal requirements and company procedures in investigations and reporting.
