Delivery Mode: In-person / Live Virtual / Hybrid

Online course fee: N300, 000 per Participant

Available for In-plant Training

**700 U\$D for foreign
Participants**

Program Overview:

This course provides an understanding of the structure, contents and applicability of the Occupational Safety and Health Administration (OSHA) standards.

It covers the recognition, avoidance, abatement, and prevention of safety and health hazards in the workplace for general industries. It also provides information regarding employers' responsibilities as defined by OSHA, and focuses on the implementation of effective safety programs and record keeping requirements.

For Whom:

This course is designed for health and safety directors, field supervisors, engineers, safety professionals, site managers and anyone seeking better knowledge of the rules and regulations that govern workplace safety requirements.

Learning Objectives:

At the end of the program, participants will be able to:

- explain and apply the contents of the Occupational Safety and Health Administration 29CFR1910 (OSHA) standards;
- describe the training requirements of OSHA standards and identify the training topics that their organization's employees will need;
- apply the record keeping requirements of OSHA to maintain an effective workplace injury log;
- distinguish the difference between workers' rights and employers' responsibilities as defined by OSHA; and
- prepare an effective safety program that will also increase employee morale and productivity and reduce overall costs.

Course Outline:

Day 1: Introduction to OSHA & Fundamentals of a safe workplace

- Importance of OSHA
- Employees' rights and employers' responsibilities under OSHA
- Contents of OSHA standards
- Inspections of the workplace
- Walking and working surfaces
- Hazard communication course and Safety Data Sheets (SDS)
- Exit route, emergency action plans, fire prevention plans and fire protection
