Participants**

Program Overview:

Hospital Management and Administration Training provides comprehensive education in the principles, practices, and strategies essential for effective healthcare facility management. This course equips participants with the knowledge and skills necessary to navigate the complex operational and administrative challenges within hospitals and healthcare institutions.

Hospital Management and Administration Training prepares participants to effectively lead and manage healthcare facilities amidst evolving industry demands. By focusing on strategic, financial, operational, and ethical aspects of healthcare management, this course empowers professionals to drive organizational success while prioritizing patient care and safety.

For Whom:

This program is designed for primary healthcare givers, recuperative care, community and other healthcare facility administrators, chiefs of staff, chief nursing officers, department heads and other healthcare professionals with supervisory, management or executive level responsibilities.

Learning Objectives:

At the end of the program, participants will be able to:

- explore the structure and organization of healthcare systems, including regulatory frameworks, policies, and healthcare delivery models.
- plan and implement tailored strategies focusing on achieving organizational goals and improving patient outcomes.
- develop skills for financial planning, budgeting, and resource allocation specific to healthcare settings.
- explain revenue generation, cost control, and financial sustainability.
- ensure high standards of care, patient safety protocols, and quality improvement initiatives.
- apply best practices in staffing, team dynamics, employee relations, and professional development within healthcare teams.
- apply healthcare IT systems, electronic health records (EHR), and data management for efficient healthcare delivery and decision-making.
- apply legal compliance, ethical dilemmas, risk management, and patient rights within the healthcare context.

Course Outline:

Day 1: Hospital Management: Overview

- Evolution of healthcare delivery
- Types of healthcare organizations
- Role of hospitals in the healthcare system

Fundamentals of Hospital Management

- Key functions of hospital management
