**700 U\$D for foreign
Participants**

Program Overview:

The overall aim of this course is to provide participants with the competencies required to improve their Emotional Intelligence (EI). Participants on this interactive course will explore the importance of EI as well as its positive impact at the professional and social levels with the aim to increase their effectiveness of their relationships at work and in life. Participants will also learn how to utilize EI skills by helping them devise a Personal Development Plan (PDP) to improve in all the required EI competencies.

For Whom:

Managers, business professionals and individuals who have decided to learn and develop their emotional intelligence competencies to enhance as well as manage their relationships at work and in life.

Learning Objectives:

At the end of the programme, participants will be able to:

- discover the impact of emotions on human behavior;
- use the six principles of emotional intelligence in order to enhance relationships with others;
- interpret EI scores and their implications in order to improve interactions with other people;
- describe their EI strengths and weaknesses using the MSCEIT model;
- devise a PDP aimed at developing and improving emotional intelligence; and
- apply EI skills in order to maximize personal influence at the professional and social levels.

Course Outline:

Day 1: Emotions and reasoning at work: the six principles

- Rule of reason or rule of emotion
- Principle one: emotions are data
- Principle two: emotions should not be ignored
- Principle three: emotions should not be hidden
- Principle four: decisions and emotions
- Principle five: emotions follow logical patterns
- Principle six: emotional universals and specifics
- Case studies and applications
