

Workshop on Water Treatment, Distribution Systems & Facility Maintenance

January 19 – 23, 2026, 1st Run: Lagos & Port Harcourt

July 20 – 24, 2026, 2nd Run: Lagos & Abuja

For Tutor -Led Class: 9am – 4:30pm

Workshop fee: N350, 000 per Participant

Abuja / Port Harcourt: N400,000 per Participant

Delivery Mode: In-person / Live Virtual / Hybrid

Online course fee: N300, 000 per Participant

Available for In-plant Training

**700 U\$D for foreign
Participants**

Program Overview:

Water pollution and regulated substances are growing at a fast pace and there is need for continuous supply of water of appropriate specifications to numerous applications in our communities and process industries. The dire need for water production, treatment and distribution, in order to balance demand and supply and provide water that is fit-for-purpose, is therefore a must in our daily lives.

This Water treatment, distribution systems and facility maintenance course will focus on existing and emerging water production, treatment, distribution and maintenance techniques that are available and are used in a wide range of domestic and industrial applications. It will equally provide valuable information on those decisions that are needed in order to attain a sustainable balance between Health & Safety and Regulatory considerations.

For Whom:

This course is designed for Community water project managers. Process plant engineers in water treatment sector, quality assurance departments of waterboards and local water authorities, health & safety inspectors of regulatory authorities and facility maintenance management personnel. Maintenance personnel in healthcare and hospitality industry will equally benefit from this program.

Learning objectives:

At the end of the course, participants will be able to;

- explain the full process of water treatment, distribution systems and facility maintenance;
- select and apply appropriate water treatment techniques;
- develop suitable monitoring plans to assess the effectiveness of the chosen treatment technique;
- carry out inspections to optimize the treatment regime and ensure on-going fitness for purpose;
- ensure that water treatments meet regulatory requirements;
- gain practical knowledge of operating and maintaining water distribution system; and
- emphasize safe practices and procedures in maintenance jobs

Course Outline:

Day One: Understanding Water Treatment

- Water treatment – Terms and Definitions
- Water pollution and main groups of water pollutants – Pollutants vs Contaminants
- Effect of treatment techniques on chemical composition and microbiological quality
- Biochemical water treatment - Biological oxidation/Aeration, biofilters

Day Two: Physical treatment techniques (sedimentation, filtration, dissolved air flotation - DAF etc.)

Human Capital Associates Global Consult Ltd is Accredited by Nigeria Council for Management Development (NCMD)

Lagos: Human Capital Associates Global Consult Ltd: Acme House 2nd Floor, Ogba Industrial Scheme, Ogba, Ikeja – Lagos

Website: www.hcaglobalconsult.com; Email: info@hcaglobalconsult.com, hcaglobalconsult@gmail.com

Tel: Office Lines: Mon – Fri | 8am-5pm | +234-8051365946, +234-7087578814 (Office Lines)

24/7 Lines: +234-8068933608 (WhatsApp), +234-8029170491 & +234-8145745664(WhatsApp) & +234-9112830607

- The concept of Mobile Water Treatment (MWT) – applications and benefits
- Wastewater treatment;
 - Definition, Types of Wastewaters
 - Primary, secondary & Tertiary treatment of wastewater
- Applications of treated wastewater including water reuse - Restrictions & Regulations

Day Three: Drinking Water Treatment

- Review of international and local regulations and policies on drinking water quality
- Continuous monitoring of water quality & Process optimization
- Typical treatment techniques applied in the production of drinking water
- Hot & Cold-water systems – Basic considerations for corrosion and scale inhibition
- Case studies/Examples

Day 4: Drinking water storage & distribution networks

- Main objectives and components of Water Distribution systems;
- Water demand categories, patterns, calculation and forecasting;
- Steady-state hydraulics of pressurized flows, single pipe calculation, branched and looped networks, pressure driven demand;
- Hydraulics of storage tanks and pumps;
- Hydraulic design: choice of supply scheme, network layouts, design of pumping stations, power requirements and energy consumption;
- Engineering design: choice of pipe materials, valves and other equipment;
- Network construction: pipe laying, testing and disinfection;
- Operation & maintenance: regular & irregular supply, network cleaning and rehabilitation.

Day Five: Water Distribution System Operation and Maintenance

- Water distribution system operator duties;
- Procedures for operating and maintaining clear wells and storage tanks;
- Operating and maintaining distribution systems;
- Water Loss Management and Control:
 - Definition of non-revenue water
 - and IWA terminology used in the sector;
- Components of water losses, methods of reducing and controlling real- and apparent network losses;
- Leak location and repair techniques, pressure management
- Maintaining water quality in the system;
- Disinfecting new and repaired facilities, as well as water delivered to consumers;
- Techniques for recognizing hazards and developing safe procedures and programs.

Training Methodology

Lectures, discussions, exercises, case studies, audio-visual aids will be used to reinforce these teachings/learning methods.

LOCATIONS

1 - HCA Learning Centre. Acme House 2nd Floor, 23, Acme Road, Ogba, Industrial Scheme, Ikeja, Lagos, Nigeria

2 – FAB By Toprank Hotel, Opposite Old Federal Secretariat Area 1, Garki, Abuja.

3 – Pakiri hotel Ltd., 4 Okwuruola Street, off Stadium Road, Rumuola, Port Harcourt, Rivers State.

Open Course Fee: N350, 000
In-plant Fee Negotiable

WORKSHOP FEE:

N350, 000 per participant, VAT –N26,250

Abuja / Port Harcourt: N400,000 per Participant. VAT-N30,000

Note: this covers Workshop Fee, Tea/coffee break, Lunch, course materials and certificate of attendance.

Payment should be made into our Accounts:

Account Name: Human Capital Associates Global Consult Ltd.
