

# DEVELOPING EFFECTIVE HEALTH, SAFETY & ENVIRONMENT MANAGEMENT SYSTEM (HSE-MS) IN HOTEL INDUSTRY

## Introduction

A hotel is a building or commercial establishment where people pay for lodging and where meals and other facilities such as conference rooms are often available. With the exposure of hotels and facilities in the hospitality industry to a large number of people, a lot of health and safety issues arise in these environments. This safety training workshop promises to identify hazards prone to this industry and demonstrate how to build an effective and formidable HSE-MS in Hotel Management & Catering industry that will control on-going operational cost and improve the efficiency of the on-going operations.

## This training will cover:

- Peculiar Workplace Hazards in Hotel industry; Prevention & Proactive Management
- Basic Steps to setting up formidable Occupational Health & Safety Management System
- Managing operational Risk
